

# Cloud Services Hosted Exchange

- Unlimited mailbox Storage
- Easy to deploy, and fully managed
- Complete email and collaboration

Team collaboration is easier than ever, with hosted Microsoft® Exchange 2013 from Staples.

Effortless sharing of documents, calendars, contacts, tasks and notes will save you time and money. At the office, on your iPhone or Android device, or via Outlook Web App, Hosted Exchange brings you the connectivity you need to reach new heights of productivity.

Hosted Exchange is a consumer and business email and collaboration solution that we host on a top-of-the-line infrastructure maintained by Microsoft-certified engineers. We provide the latest Outlook applications that allow rich email creation, management and archiving, as well as calendar, tasks, contacts, and public folder sharing.

Whether you need just one or two mailboxes for your home or small business, or hundreds for your enterprise, we have a hosted Exchange offer for you.

- Unlimited storage in your Exchange mailbox
- ActiveSync for up to 3 devices keeps you connected to your inbox and calendar
- Outlook Web App lets you securely access your inbox from any browser
- Share calendars or distribution lists with clients, just as if they were part of your organization
- Prevent any unintentional information leaks with Outlook 2013's Mail Tips, that alert you before you send emails to outsiders or lists
- Benefit from tidy new Conversation View, MailTips, full parity of Outlook Web App and more, with Outlook's newest release
- Add or remove users on our user-friendly control panel
- Premium add-on features also available through Staples

Hosted Exchange is quick and easy to deploy, and offers incredible features to make you more productive.
